

Universal Wireless Setup Instructions

System requirements: Linux, Mac, Windows

Description:

The Office of Information Technology (OIT) has installed wireless network access points in academic buildings across campus. These wireless access points allow 802.11a/b/g devices to connect to the UT Arlington campus network for Internet access. Please contact the Help Desk at 817-272-2208 if you experience any problems, no guarantee can be provided that you will be able to make a wireless connection.

How to Use:

Basic Setup - Choose UT Arlington Web Login

1. View Wireless Networks.
2. Select **UT Arlington Web Login** (You may need to click Refresh network list).
3. Click **Connect**, and click **Connect Anyway** at warnings (if applicable).
4. After connected to the "**UT Arlington Web Login**" Wireless Network Passphrase Keys is **UT Arlington secret** (case sensitive, uppercase, lowercase).
5. Open a web browser. You should be greeted with a welcome page.
6. You will enter your *NetID* and *password* and click **Submit**.
7. You should now be redirected to the OIT Computer Usage Policy web page.

If the instructions provided do not establish a wireless connection, please follow the steps below.

Advanced Setup - Choose UT Arlington wireless Setup

1. View Wireless Networks.
 2. Select **UT Arlington wireless Setup** (You may need to click Refresh network list).
 3. Click the **Connect** button, and click **Connect Anyway** in the warning popup.
 4. Open a web browser. You should be greeted with a welcome page.
 5. Click the check box to **accept** the EULA, then click **Start**.
 6. Choose either **UT Arlington Auto Login** or **UT Arlington Web Login**, then click **Continue**.
- **"UT Arlington Web Login"**:
 - After connected to the "UT Arlington Web Login" Wireless Network Passphrase Keys is **UT Arlington secret** (case sensitive, uppercase, lowercase).
 - Open a web browser and enter your *NetID* and *password* and click **Submit**.
 - You should now be redirected to the OIT Computer Usage Policy web page.
 - For **"UT Arlington Auto Login"**:
 - If you want to be automatically connected at startup, leave the Automatically submit credentials box checked; otherwise, uncheck the box.
 - Enter your *NetID* and *password*, then click **Continue**
 - If necessary, click **Retry** to finish the connection process. You should now be redirected to the OIT Computer Usage Policy web page.
 - Click **Done** in the XpressConnect window to exit the XpressConnect application.
