CLASSROOM ENVIRONMENT

- Classroom temperatures can fluctuate, especially given the Texas climate. The system works best with minor 1-2 degrees adjustments and can take up to 45 minutes to regulate. If the majority of the students in the classroom are experiencing discomfort, the UTA Fort Worth staff asks that the instructor notify our front desk to request an adjustment (available until 9PM).

- In order to provide the best learning experience for all students on campus, we ask you to be sensitive to the noise level in the hallways and common spaces.
